

Curriculum Rationale

At St Paul's Infant School we believe that the curriculum is a powerful tool that promotes a love of learning and willingness to explore as well as time to have fun.

We are proud to be adopting a connected curriculum that encourages the children to consider all areas of learning and how they are impacted by their locality and community. This curriculum offers the children an opportunity to use their own investigative skills to extend their learning in a wide variety of subject areas.

The curriculum is further enriched by embedding the school's clear values and teaching Learning and Life Skills which complement the academic learning of the children. This shows the school's commitment to developing the whole child. Our children will have the opportunity to be creative, to be physically active and to be academically challenged.

We will continue to work with all school partners to further develop our curriculum to ensure the needs of all learners are met and challenged.
